

Internal Affairs Matters for Law Enforcement Officers

New Jersey Lawyers Representing Law Enforcement Officers Throughout the State

Our attorneys are also affiliated with the New Jersey State Policemen's Benevolent Association (NJSPBA) and their Legal Protection Plan (LPP). We have provided representation to law enforcement officers facing both internal affairs/administrative investigations in their respective agencies and criminal investigations, and the defense of criminal charges. We frequently accompany law enforcement clients on interviews throughout the state with county and state officials and defend clients at administrative hearings. We have also represented officers facing criminal charges of Official Misconduct and related crimes.
